

GREECE

SPRING 2024

Join us for our next epic Yoga Retreat to
Lefkada, Greece May 11-18, 2024

Our surroundings in **GREECE**

MAY 11-18, 2024

Lefkada, also known as Lefkas, has a leafy interior scattered with traditional mountain villages just waiting to be discovered. This little treasure of an island in the Ionian Sea perhaps isn't as famous as some of its neighbors like Corfu and Kefalonia, but boasts exquisite cuisine, idyllic coastal towns and some of the most beautiful beaches in Greece. The inlet pictured above highlights our retreat's private beach.

The nearby Porto Katsiki is considered one of the most beautiful beaches in Europe. A short drive down the coast, Egremni beach offers a similarly dramatic setting. If you are looking for somewhere even more secluded, hike through the forest or take a boat to Milos beach, famous for its unparalleled sunsets.

Our Lodging in GREECE

MAY 11-18, 2024

A part from the stunning ocean views and outdoor spaces, each 2-3 bedroom villa has more than 2100 sq ft of interior space, with single or double occupancy bedrooms, which will give you plenty of area to relax or practice. Nestled inland, our villas are located nearby the beautiful Ponti-Vassiliki, one of the most peaceful villages on the island, as well as the famous Porto Katsiki, the Lighthouse and other great attractions within a 5-15 minute driving distance.

Leading downward from our villas is a hike that will take you to the wonderful private beach of Ammoudi, only accessible from our villas or by boat. The area belongs to the environmental protection network Nature 2000 as a habitat for dolphins and seals. The beach is covered with small white pebbles and bits of sand and boasts unbelievably crystal blue and turquoise waters. Although it's a 20-30 minute steep walk each way, it promises to be rewarding, worthwhile hike.
